ECM GROUP : A brief introduction

ECMSL : A private Limited company has been established in 1990 and registered with the joint stock company with the primary objective of promoting international trading. The company has a wealth of experience in its promoters / directors, who have successfully engaged for last 27 years in, primarily meeting the Defense sector's requirement – from local as well as foreign sources / origins.

ECMAC : Following the success in marketing of commercial vehicles and equipments, from European and Asian sources the necessity of modern workshop was felt, to provide after sales support for the vehicles and equipments sold by group. Thus the company ECM Auto Center Ltd. (ECMAC) was established and incorporated with the register of Joint Stock Company in 7th October 2001. The workshop has been designed to fulfill multipurpose objectives.

AIL : To serve the nation in the IT field, The company ANUPAM INFOTEK LIMITED (AIL) has been launched in 1999 with services including multimedia,animation,web dev,software,networking and training facility. AIL launched a computer education center in early 2000 in the name of Multimedia Systems located at Gulshan 2, Dhaka under the franchise of ARENA, a Division of Aptech Worldwide, to provide world class education in multimedia and internet to local students.

In the year 2002, AIL Focus on Network Engineering and IT Services (BPO & ITO) and doing so, AIL has joined hands with GTL Ltd, India to provide state-of-the-art network services for Bangladesh market.

AIL has signed an agreement with SIEMENS,BD in the year 2004 for doing telecommunication jobs .

Our global services include telecom engineering,converged networking solutions,managed services,process implementation solutions and process fulfillment services. Our service domain include public and private sectors in banking,finance and insurances;IT and Telecommunications;retail and logistics;process and batch manufacturing; and health care .

AIL's Network engineering division is successfully engaged in telecommunication jobs including :

- Infrastructure project management
- Network build , management , Integration , Outsourcing
- Planning , Design & Consulting
- Turnkey Installing and Commissioning including civil works,transportation, tower erection,power sector
- Operations/Maintenances (O&M)
- Value Added Services
- Network Optimization , Drive Test

Certifications

- **ISO 9001: 2000 for 14 departments**
- **ISO 14001:1996**
- **SA 800 / OHSAS 18000**
- **PCMM Level 4**
- **BS 7799**

Qualification : AIL's Engineers

AIL'S ENGINEERS are Trained by world renowned telecom service provider company : GTL ,INDIA .
in all the fields of telecom domain.

Our engineers get trained in the following equipment/technology:

- MOTOROLA
- ERICSSON
- SIEMENS
- NEC

AIL's engineers have already worked (UNDER technical assistance of GTL) for :
(installation/commissioning/design & planning/survey/integration)

- CITYCELL (MOTOROLA CBSC/DRIVE TEST/BTS PACKETISATION)
- BANGLA-LINK(SIEMENS MW/BTS/SURVEY)
- GP(ERICSSON BTS/NEC MW)

More projects are under processing
